

Would you like to build an affordable eco home in Buckfastleigh?

Find out more

Friday 15 June

7.30 p.m.

Room 3 Buckfastleigh Town Hall

We are a local group intending to self-build our own low-cost, environmentally sustainable, houses locally.

Come and join us if you:

- Need housing but cannot afford to buy a house on the open market here and
- have local connections to Buckfastleigh and
- are interested in building your own well-insulated house with training and local natural materials supplied.

If you cannot get to the meeting and want to register your interest, e-mail Erica Lewis, Land Society CIC on erica_lewis@btinternet.com
